### Annual C-Score Performance

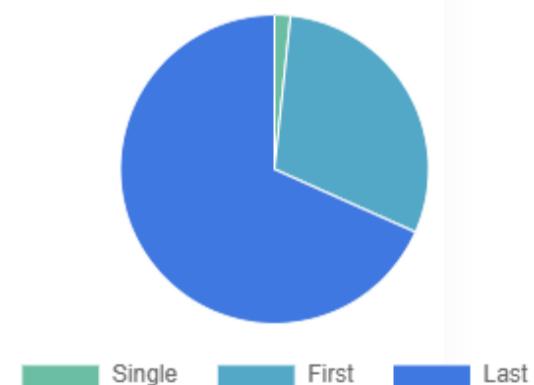

### Field & Subfield Distribution (Science-Metrix)

Note: This chart shows the distribution of citations across the author's top-ranked Science-Metrix categories. The top bar represents the broad field, followed by the first and second most associated subfields, based on the proportion of citations.

### Authorship Distribution

### Other Chemistry Scientists

[Grimme, Stefan](#)

Based on Scopus data provided by Elsevier, using a ranking methodology developed by Stanford University researchers. Visualization and interface developed by [Manuel B. Garcia](#).
